“Your Guidance System for Life Success”

Dear 4th & 5th Grade Mentors & Parents,

Your child is about to have a powerful, positive, and meaningful experience in learning Principles and Values for success in life. Your principal, Jonathan Grantham, has requested for the Metropolitan Ministry Partnership School to Pilot this new and exciting program with all 4th & 5th graders. This is a fun and “hands-on” Program using innovative learning methods for your children to learn “Life Skills” in how to choose and develop good habits for life. Because your children will not feel like they are taking a class, we call the learning experiences “Adventures.” The first of 8 adventures begins this Tuesday, April 24th and the program will end with a special “Graduation” on Wednesday June 6th that we hope you will attend. Your children will share at the Graduation what they learned from this Program about their Journey in Life and what they are committed to do NOW to help prepare for a happy, healthy, and productive life. We hope this will be a life changing experience for them!

You as Mentors and Parents play a very important role in reinforcing and helping your children to apply each week’s learning to “Action Plans” they will create to truly change their behaviors, building good habits for life. Please review the attached packets for Mentors & Parents to understand your role in this exciting journey.

If you have questions, please contact your Principal, Jonathan Grantham, or you may call us directly as follows:

- Matthew Hoffman – CIO, Chief Inspiration Officer at 813-477-5589
- Jeffrey Cain – Education Director at 813-966-9977

We look forward to partnering with you on this amazing “GPS”-guided journey.

With Great Appreciation for Your Children,
The L2LB Character GPS Team,

Matthew P. Hoffman
